Importance: High

Hi all

Please see Chris's email below for expectations regarding these interim updates for our new RA. (LEP will do this again the first week of November for OECA.) I've highlighted **September, October and November action items** for particular consideration.

If you do not have any items on these charts please let Ellen and me know via email at your earliest convenience.

If you have items on these charts but do not have any updates please let Ellen and me know via email at your earliest convenience.

If you have updates please rename the document by replacing "master" with your first or last name, and send the documents to Ellen and me at your earliest convenience.

As always, thanks for your attention to these reports.

Chuck

All:

The OECA red/green charts and the one-pagers are going to be added to the new RA's briefing SharePoint site this week. Chuck will be sending an email with instructions for updates to the chart. We're looking for essential updates: expected action dates, tolling agreement expiration dates, significant changes in the status of the case, etc. But feel free to make any changes you believe are necessary. **Please complete your revisions today if at all possible.**

THANK YOU!
